# Robust Test Infrastructure

The Sauce Labs Platform for Test seamlessly integrates your test strategy at every development stage. Leverage our Device Lake™, Browser & OS Lake™, and Test Runtime Tooling for unparalleled programmability, accessibility, and integration capabilities. Partner with Sauce Labs to ensure software quality across your software development lifecycle (SDLC).

## DEVICE LAKE

- Real device cloud
- Private devices
- Emulators & simulators
- Virtual machines

## BROWSER & OS LAKE

- Safari
- Chrome
- Firefox
- Edge
- iOS
- Android

## TEST RUNTIME TOOLING

- REST APIs
- Sauce Orchestrate
- Sauce Connect
- SauceCTL
- URL performance
- Sauce IPsec proxy

# Platform For Test

With over 15 years of test expertise and leadership, Sauce Labs stands as the leader of programmable, accessible, and integratable test infrastructure. Leverage our robust test environment, built to integrate seamlessly with your tools, workflows, and development lifecycle. Plus, access first-party applications for accelerated time-to-market, along with AI-driven insights to enhance observability.

 <h2>Scalable Test Automation</h2> <p><b>Scale automated testing coverage across browsers and OS</b></p> <ul style="list-style-type: none"><li>• 800+ virtual browser and OS combinations</li><li>• Scale testing with your framework of choice</li></ul>	 <h2>Mobile App Testing</h2> <p><b>Deliver seamless mobile experiences</b></p> <ul style="list-style-type: none"><li>• 7500+ real devices available</li><li>• 1700+ emulators and simulators</li></ul>	 <h2>Test Orchestration</h2> <p><b>Optimize testing in your CI/CD</b></p> <ul style="list-style-type: none"><li>• Integrate seamlessly with your CI environment</li><li>• Up to 70% faster test execution</li></ul>
 <h2>Low-Code Test Automation</h2> <p><b>Low-code testing for SaaS apps</b></p> <ul style="list-style-type: none"><li>• AI/ML platform</li><li>• Automated tests from natural language</li></ul>	 <h2>Visual Testing</h2> <p><b>Discover visual regressions using existing tests</b></p> <ul style="list-style-type: none"><li>• End-to-end visual regression testing</li><li>• Component tests</li></ul>	 <h2>Mobile Beta Testing</h2> <p><b>Distribute and manage beta apps quickly on one platform</b></p> <ul style="list-style-type: none"><li>• Test mobile apps with real users</li><li>• Cross-platform support</li></ul>
 <h2>Intelligent Debugging</h2> <p><b>Better debugging with intelligent insights</b></p> <ul style="list-style-type: none"><li>• ML-powered Failure Analysis</li><li>• Accelerate triage with root cause analysis</li></ul>	 <h2>AI-Powered Insights</h2> <p><b>Unified intelligence platform</b></p> <ul style="list-style-type: none"><li>• Smart test result visualization</li><li>• Faster feedback loops</li></ul>	 <h2>Crash &amp; Error Reporting</h2> <p><b>Application error monitoring and crash reporting</b></p> <ul style="list-style-type: none"><li>• Cut resolution time up to 50%</li><li>• Proactive error detection</li></ul>

# Sauce Labs Promise

"Continuous Integration and Continuous Delivery are crucial for any product to provide customer value. Integrating Sauce Labs automated testing into the CI/CD pipeline accomplishes high product quality at every step."

## Platform for Test

The only platform with a robust test infrastructure and complete suite of testing tools for every stage of the SDLC. Trusted by top enterprises and recognized as an IDC market leader.

## Test Expertise

Founded by Selenium and Appium creators, we bring unmatched test expertise and top-notch customer support. Join the Sauce Community for guidance from world-class testing experts.

## Coverage at Scale

With over 6 billion tests run, 1700+ emulators and simulators, support for 7500+ real devices, and 900+ browsers, we provide unrivaled scale and coverage. Run thousands of tests in parallel with your framework of choice.

## Security & Compliance

We ensure the highest security and data protection standards from our US HQ, holding certifications including, SOC 3, SOC 2 Type 2, ISO 27001, and ISO 27701, as well as GDPR, CCPA, and HIPAA compliance.

## Intelligent Insights

AI-driven insights, customized reports, and failure analysis empower continuous improvement and intelligent debugging across the SDLC.

## Faster Test Execution

Achieve unprecedented test speeds with 70% faster test execution with Sauce Orchestrate, along with a 10x speed boost through parallel testing.
